Electrical Review

VOLUME 72, JANUARY-JUNE, 1918

Articles marked * are illustrated; (E) indicates "Editorial".

A

Acker Electrical Company, window displays and interior store decorations of* ... 1009
Acker, John L., delivers address on "Why the Electrical Contractor Should Be a Merchandiser" ... 766
Acme Power Company, Transmission line joining it with Toledo company* ... 185
Activities in the Trade* ... 49, 86, 132, 170, 212, 256, 315, 354, 394, 441, 493, 536, 573, 613, 659, 701, 745, 785, 820, 856, 896, 936, 973, 1021, 1061, 1103
Adams, Prof. C. A., elected president of American Institute of Electrical Engineers ... 900
Advertisement of Cleveland company* ... 74
Advertisement of Commonwealth Edison Company on industrial heating* ... 685
Advertisement of Edison Electric Illuminating Company of Brooklyn* ... 600
Advertisements of Pass & Seymour* 645
Advertisements of Rockford Electric Company on electric cooking* ... 635
Advertising electric fans ... 1011
Aerial cable construction for electric power transmission, by E. B. Meyer* ... 1081
Air-compressor outfit, made by M. L. Bastian Auto Engineering Works* ... 211
Air compressor combination of and buffing and grinding head* ... 439
Air-compressors, use of portable motor-driven* ... 892
Air conditioning for turbogenerators 772
Air washing increases available capacity ... 205
Akron Electric Construction Company places Whitecotton pipe and conduit bender on market*. 739
Alabama Power Company hydroelectric plant ... 449
Allis-Chalmers Manufacturing Company generators used in Norway* 594
Motors used in bakery of Century Biscuit Company* ... 751
Alternators, sustained short-circuit phenomena and flux distribution of salient-pole alternators, by N. S. Diamant ... 1080
American Association of Engineers to discuss war problems ... 71
American electrical goods in Australia ... 723
American Electrical Society, oldest electrical organization, by William E. Kelly ... 426
American Electrochemical Society—
Spring meeting to be held ... 242
To hold spring meeting and tour 559
American Fixture Company holds scientific industrial lighting demonstration ... 973
American Gear Manufacturers' Association discusses gear standardization ... 485
Holds Second Annual meeting ... 761
American Institute of Chemical Engineers to hold semi-annual meeting ... 1002
American Institute of Electrical Engineers Convention (E) ... 1085
American Institute of Electrical Engineers—
Address of Colonel J. J. Carty .. 874
Chicago Section to meet ... 225
Chicago Section holds meeting .. 919
Discusses electric welding ... 553
Holds annual convention at Atlantic City ... 1086
Holds meeting in Cleveland ... 457
Lynn Section's banquet ... 276
Lynn Section hears war lecture. 70
Lynn Section discusses metric system ... 236
Lynn Section discusses electric furnace for non-ferrous metals ... 520
Midwinter convention held ... 342
Minneapolis meeting ... 160
Pittsburgh Section holds joint meeting with Association of Iron & Steel Electrical Engineers ... 146
Program of annual meeting ... 1001
Program on meeting to be held at Cleveland ... 375
Report of board of directors and officers ... 873
Schenectady Section listens to address "Britain at War." ... 372
Schenectady Section meets ... 157
Sections to meet in Boston, Chicago and New York ... 9
Sixth annual to be held ... 238
Triple meeting in Boston, Chicago and New York ... 114
American Machinery Company makes motor-operated machines for paring and washing vegetables* ... 308
American Ready Works supplies steel cabinet for automobile lamp dealers* ... 1017
American Telephone & Telegraph employes render valuable service at the front* ... 937
American Washing Machine Manufacturers' Association elects officers ... 239
Ampere-hour meters in place of watt-hour meters ... 964
Anaconda Copper Company to erect manganese plant ... 559
Anchor, guy, calculating holding strength of, by Gustav E. Jansson* ... 771
Andalusia Diary Company's motors, by J. P. Moore* ... 120
Anchor Clap & Closure Corporation manufactures electric vacuum machine* ... 890
Anthracite fields, electrical equipment extended to ... 872
Apex Electrical Manufacturing Company, prize-winning vacuum cleaner window display* ... 474
Submarine vacuum cleaner* ... 491
Apparatus, electrical, method of increasing capacity of, by M. S. Montgomery ... 122
Apparatus, enclosed corrugated, iron structure, by Roger L. Evans* ... 959
Appliances, electrical, how they are serving the country, by George A. Hughes ... 983
Appliances, electrical, will help win war, by H. V. Coffy ... 683
Appliances, household, kept at work (E) ... 554
Appliances, industrial heating, offer central station opportunity ... 957
Appliance opportunity (E) ... 373
Appliance policy for 1918 by R. A. MacGregor ... 72
Appliance sales, campaign of Public Service Company of Northern Illinois* ... 345
Appliance sales pushed in Chicago* .. 383
Appliance selling methods of middle western company ... 634
Appliances sold at Minneapolis in 1917 ... 381
Appliances sold on easy-payment plan ... 472
Appliances, suggestions for selling, by Thomas F. Kelly ... 648
Appliances, why women can sell electrical household, by Anna A. Tietz ... 644
April street lighting schedules ... 526
Arc, effect on adjacent material, by Otis A. Kenyon ... 371
Arkansas Association of Public Utility Operators hold annual convention ... 956
Arkansas Valley Railway Light & Power Company's experiments with girls as meter readers ... 244
Arrester, oxide-film, by Crosby Field* 1081
Arrester, oxide-film, by Charles P. Steinmetz ... 1081
Arrow Electric Company, porcelain outlet-box receptacles* ... 81
Arrow Transportation Company's lifting magnet to recover sunken iron* ... 130
Artesian Limestone Company's electrically operated property* ... 1067
Ashes, Link-Belt monorail hoists used for handling* ... 210
Ash pit, carbon loss in* ... 681
Associated Business Papers, Inc., gives suggestions for solving transportation problem ... 484
Associated Manufacturers of Electrical Supplies—
Its war service work ... 38
Works with War Industries Board* ... 159
Holds annual meeting ... 518
Organizes signaling apparatus section ... 680
Holds annual meeting ... 557
Association of Iron & Steel Electrical Engineers—
Committees appointed ... 238
Holds annual convention ... 1043
Philadelphia Section meets ... 71
Philadelphia Section to meet ... 765
Pittsburgh Section to meet ... 280
Pittsburgh Section holds joint meeting with American Institute ... 146
Astoria (Ore.) distributing system* .. 796
Austin, M. B. & Company, fixture hanger for old-house wiring* ... 351
Austrian electrical development ... 594
Auto Adjustolite fixture for garages and shops made by Herwig Art Shade & Lamp Company* ... 1017
Automatic combustion control saves coal, by I. L. Kentish-Rankin* .. 64
Automatic control of electric heaters, valves and similar apparatus, by G. E. Palmer* ... 563
Automatic control for vacuum cleaner made by Cutler-Hammer Company* ... 253
Automatic Electric Washer Company's new electric washers* ... 305
Automatic Motion-Picture Machine Corporation's new type of machine ... 305
Automatic Reclosing Circuit Breaker Company—
Automatic reclosing circuit breaker* ... 572
Reverse current relays* ... 533
Automatic electric kitchen in army* 816
Automobile lamp cabinet supplied by American Ready Works of National Carbon Company* ... 1017
Avery Companys' tractor furnishes power to town, by Joseph H. Wiley* ... 757
Awl, point protector for, by A. Gemmell* ... 691

B

Baffling important factor in boiler efficiency ... 384
Bakery, operating features of motor-drive in Century Biscuit Company* ... 751
Balancing rotating machinery chart. 571
Ball bearings effect savings ... 77
Banking distributing transformers (E) ... 516
Banking transformers in distributing system, by M. E. Grah* ... 507
Banking of distribution transformers, by P. O. Reyneau and H. Cole ... 948
Banking transformers, operating details of ... 605
Bardeen Corporation eliminates metal fatigue by electricity ... 844
Bastian, M. L., Auto Engineering Works' air-compressor outfit* ... 211
Battery-charging installations for industrial trucks* ... 778
Battery rental service ... 814
Battery room, features of design* .. 927
Bauer Brothers Company develops electrically-driven laboratory grinder* ... 1016
Bay City Battery Service Company organizers ... 701
Bay State Fuel Company's electric coal wagon* ... 297
Uses Electric truck for delivering coal* ... 481
Bell, cable end, Electrical Engineers Equipment Company ... 612
Bell Telephone Company aids government ... 69
Bench, portable, by C. H. Willey* ... 641
Bending racks and roll benders for large conduit and pipe, by Terrell Croft* ... 1052
Bending racks and roll benders for large conduit and pipe, by Terrell Croft* ... 1095
Benjamin Electric Manufacturing Company markets Benco pull-chain socket* ... 308
Berresford, A. W., elected president of Associated Manufacturers of Electrical Supplies ... 557
Berry flexible and expansion joints* 129
Best Electric Company's plug* ... 82
Bethlehem Steel Corporation to operate Chilean iron mines ... 681
Bills being prepared by New Jersey legislature re-extending powers for municipal utilities ... 117

233798

Binghamton Light, Heat & Power Company has girls for meter readers 163
Increases revenue by thawing frozen water pipes..... 201
Birtman Electric Company—"Bee" vacuum cleaner* 490
Bissell Motor Company manufactures new model suction cleaner* 740
Black & Decker Manufacturing Company's electrically operated tire pump* 253
Bland Electric Garage's service... 303
Blood, W. H., Jr., points out facts concerning Hog Island plant ... 1044
Blueprints, making from printed pages, by Harry O. Garland.... 348
Boiler and furnace performance, log of (Table) 66
Boiler corrosion caused by entrained air 163
Boiler efficiency, baffling important factor in 384
Boilers, improving performance of gas-fired 772
Boiler log sheet for oil fired boilers. 688
Boiler makeup water treated selectively by Lionel Linnell 76
Boiler-room operation improved, by I. L. Kentish-Rankin* 986
Boiler room trouble solved by steam-flow meters, by Lionel Linnell. 1049
Boiler room, Turn Light on Boiler Room (E) 951
Boilers, safety methods for laying up, by Lionel Linnell 161
Book Reviews:
Calorific Power of Fuels, by Herman Poole 738
Electrical Machinery, by Terrell Croft 530
Electrical Measurements, by Frank A. Laws 693
Everyman's Chemistry, by Ellwood Hendrick 530
Finding and Stopping Waste in Modern Boiler Room—Compiled by George H. Gibson, assisted by Percy S. Lyon.. 1014
Powdered Coal as a Fuel, by C. F. Herrington 693
Practical Electricity, by Terrell Croft 1014
Practical Wireless Telegraphy, by Elmer E. Bucher 127
Radio Communication: Theory and Methods, by John Mills 530
Telegraph Practice: A Study of Comparative Methods, by John Lee 738
The Lighting Art: Its Practices and Possibilities, by M. Luckiesh 127
Boston contractors hold organization meeting 424
Boston Elevated Railway Company operates underground substation* 686
Boston street-lighting arbitration.. 680
Brakes, new types of Westinghouse* 83
Brass furnace, electric, perfected by Bureau of Mines 925
Breakers, self-timing circuit, made by Roller-Smith Company*..... 778
Breco Electric Company manufactures Breco converters* 816
Briquettes make fuel for anthracite users 834
British electricity supply, future of. 1079
British engineers favor electric drive for rolling mills 377
British government to aid war workers 457
British India, electrical development in 797
Broadway, New York, lighting*..... 1
Brookfield's growth promoted by electric slogan sign*..... 1046
Brooklyn Edison Company conducts war stamp sale 600
Brooklyn Edison Illuminating Company conducts sales campaign.. 560
Brushes, cleaning the contact faces of motor, by Maurice J. Moriarty 208
Bryant Electric Company—
Canopy tap device* 128
Changes in sales personnel..... 701
Markets new fuseless rosettes*. 1098
Socket cap with strain relief bushing* 391
Switch, two-circuit, for single gang box* 437
Bump, M. R., compiles power-plant questionnaire 1051
Bureau of Mines perfects electric brass furnace 925
Bureau of Safety, effective work of 770
Bureau of Standards' relation to illuminating engineering 599
Bureau of Standards simple methods of testing current transformers, by Francis B. Silsbee* 103
Burglar alarms for banks, etc. 79
Burrill, Paul C., presents paper on "Overhead Expenses in Our Business" 766
Busbars, iron bars for 653, 737, 964
Busbar supports, extra heavy-duty, manufactured by Delta-Star Electric Company* 1098
Bushing, conduit and cap, made by Walker Brothers & Haviland*.. 209
Bushing puller, by Charles H. Willey* 850
Byllesby, H. M., & Company—
Aids in sale of war saving certificates 35
Utilities devote space to Liberty Loan 635

C

Cabinet for automobile lamp dealers supplied by American Ever Ready Works of National Carbon Company, Inc.*..... 1017
Cables, high-efficiency, three-core, by M. Hochstadter* 168
Calgary's central station, by James F. McCall* 221
California and western utilities connect up their systems 281
California-Oregon Power Company vs. Keno Power Company case decided by Oregon Public Service Commission 921
California's water-power development* 415
Campbell, Wyant & Cannon Foundry Company's motor drive*... 99
Canada to build steel-ship yards... 728
Canadian electric steel growth..... 547
Canopy tap device made by Bryant Electric Company* 128
Carbon loss reduction in ash pit*... 881
Carnegie Institute launches war courses 515
Carry on (E) 951
Carton-making machine*..... 981
Carty, Col. John J., receives Edison medal 874
Cedar poles substituted by fir..... 1050
Cement, waterproofing pole settings of, by M. Rogers*..... 465
Central Electric Company—
Banquet of sales division employes* 316
Window display as sales medium* 472
Central station and contractor cooperation 648
Central station and the industrial electric heating load, by Arthur F. Allsop* 979, 1029
Central station at Calgary, by James McCall*..... 221
Central stations, a standardized method of unit construction* ... 409
Central-station business development during war time (E)..... 999
Central station charges laundry's electrics* 813
Central-station company's limitations 422
Central station, economy of compressed air for construction of.. 466
Central station erected by Kansas City Light & Power Company*. 665
Central-station industry during war, by T. C. Martin*..... 8
Central-station managers must be optimistic 1048
Central stations offered opportunity by industrial heating appliances 957
Central-station power developed at Streator, Ill. 522
Central stations promptly meet war power needs 984
Central-station rate increase in 1917 18
Central-station service adopted by Chicago Athletic Club 882
Central-station service a fuel saver in New York 427
Central-station service for clay plants 428
Central-station service replaces last gasoline engine at Momence, Ill. 522
Central stations, standardized method of unit construction* 409
Central station vs. private plant discussed by Public Service Commission 460
Central-station war problems (E)... 112
Century Biscuit Company, operating features of motor drive of*..... 751
Chamber of Commerce inaugurates referendum vote on waterpower 277
Chart for balancing rotating machinery 571
Chart showing cost of utility services compared with other living costs 1047
Chicago Athletic Club changes to central-station service 882
Chicago Electric Manufacturing Company designs Preston dashboard socket* 1056
Chicago Electric Vehicle Association visits Fashion Garage..... 839
Chicago engineering societies cooperate in war work 1001
Chicago Fuse Manufacturing Company to make renewable fuses.. 38
Chicago, helping the electric truck in* 650
Chicago Sanitary District receives pump station bids 1042
Chicago utility shows increased output 433
Childers Electric Company conducts appliance campaign 295
Chemical engineers to hold semi-annual meeting 1002
Chicago Telephone Company conducts school for operators for army service* 675
Makes analytical report 920
Cincinnati electrical men merge organizations 271
Cincinnati, plant at* 141
Circuits, method of finding opens in series lighting, by E. N. Vickery 606
Circuits, test methods for series, by W. I. Carpenter 731
Circuit breaker, automatic reclosing, Automatic Reclosing Circuit Breaker Company* 572
Circuit breaker, reverse-current relays, Automatic Reclosing Circuit Breaker Company* 533
Circuit-breakers, self-timing, made by Roller-Smith Company*..... 778
Citizens' Gas & Electric Company erects new turbine station*..... 861
Citizens Service Company completes transmission line to Alma..... 562
Clay plants use central service.... 428
Cleaner, suction, new model of Bissell Motor Company*..... 740
Cleveland Electric Illuminating Company—
Appeals to women to aid war work* 74
Features of collapsible manhole guard employed by company by E. E. Noble* 564
Cleveland Electrical League active in war relief* 1002
Cleveland's Hardware Company's motor replaces steam engine*.. 118
Clinker causes and their palliatives, by Lionel Linnell 246
CO_2 placed on a financial basis, chart 773
Coal and ashes handled by electric trucks 1013
Coal, automatic combustion control saves, by I. L. Kentish-Rankin* 64
Coal clause in rate increases (E)... 275
Coal conference held at Albany, N. Y 196
Coal conservation in fact, by C. R. Knowles 1078
Coal conservation in Great Britain 226
Coal conserved by electrical appliances in Ohio 292
Coal conveyor developed by John F. Godfrey* 695
Coal delivery cost lowered by electrics* 297
Coal distribution under zone system 681
Coal, drive for saving coal (E).... 916
Coal economically delivered by electric vehicle* 923
Coal grader for chain-grate stokers* 961
Coal handling and storage devices of Citizens' Gas & Electric Company* 861
Coal mines bought by Union Electric Light & Power Company..... 461
Coal mines of West Virginia use central-station power 958
Coal mines, motor-driven air compressors for* 893
Coal operators asked to co-operate with fuel administration 949
Coal pile causes corrosion 162
Coal, powdered (E) 595
Coal, powdered, for power plants, by Frederick Seymour (diagrams). 590
Coal prices encourage pulverized coal development (E) 235
Coal, pulverized, demonstrates high economy during 24-hour test (chart) 192
Coal problems 993
Coal production, maximum of (E).. 153
Coal saved by Diamond soot blowers 81
Coal saved by power generated at mines 629
Coal saving by "Daylight Plan," by Samuel Insull 348
Coal situation discussed by Committee on Gas and Electric Service 679
Coal sold to public by utility company 201
Coal storage data 687
Coal washing reduces spontaneous combustion 1051
Coal watering 126
Code, National Electrical Safety—
Application by contractors..... 434
Endorsed by Western Association of Electrical Inspectors 427
Grounding of fixture and appliance casings (E) 631
Progress of in 1917 by Morton G. Lloyd 33
Promoting safety in electrical construction (E) 455

Code, National Electrical Safety—(Cont'd.)
Part 3, Rules for installation and maintenance of equipment 467
Price of copies 528
Section 31 of Part 3..... 527
Sections 32 and 33 of Part 3.... 566
Sections 34 and 35, Part 3..... 607
Sections 36 and 37, Part 3..... 639
Sections 38 and 39, Part 3..... 689
Code, new electrical in use in Syracuse, N. Y. 165
Code, standard code of practice for electrical contractors 290
Coffee urns, electric heaters for, made by Edison Electric Appliance Company* 167
Coils, the blind taping coils*..... 852
Coil, demagnetizing* 126, 250
Columbus Railway, Power & Light Company, Walnut Station of company* 325
Colorado Commission's order regarding safety code..... 33
Committee on Gas and Electric Service activities 376, 558
Active in coal situation..... 679
Furnishes report of work of fuel administration 872
Commonwealth Edison Company—
Advertising and educational campaigns encourage use of electric trucks in Chicago*..... 650
Asks utility commission to suspend territorial expansion .. 157
Catering to customers' requirements 430
Company's service during fuel saving 145
Comparison of load* 433
Correction on coal saving 348
During 1917 company relaid much underground conductor 282
Electrical features of Fisk Street station 903
Helps industrial heating device* 685
Helps poor obtain coal 244
Installs two turbogenerators and other equipment* 621
Lamp-renewal innovation 270
Men in service* 396
Methods of sectionalized construction* 439
Pushes appliance sales* 333
Record performance of its turbogenerator 203
Samuel Insull awards prizes for suggestions 633
Turbogenerator performance at Northwest Station 732
Vacuum cleaner window display* 464
Commutator troubles on foreign boats, by M. J. Moriarty 249
Commutators, turning down large .. 106
Commutators, undercutting mica.... .....250, 390
Compensarc for Mazda projection lamps, Ft. Wayne Works of General Electric Company 655
Compensarc set made by General Electric for changing alternating to direct current for picture projecting* 352
Compensator, diagram of motor-starting 885
Compressed air aids women in war work 603
Compressed air for cleaning switchboards 847
Compressed air for economical central station construction 466
Compressor, air, combination of, and buffing and grinding head, United States Air Compressor Company* 439
Concrete mixer for manhole and conduit work manufactured by Oshkosh Manufacturing Company 1055
Concrete work on foundations, suggestions for, by A. Gemmell*... 929
Condenser for motor starting....887, 964
Condensers, pre-charged in series and in parallel,, by V. Karapetoff 1083
Condenser, static, improves power factor, by Arthur Bridgeman.... 636
Conductors, arrangement of conductors for river span, by Pacific Power & Light Company*..... 1003
Conductors, computation of weights of, by Harry H. Barth 565
Conductors, inductance of tubular, by H. B. Dwight*..... 224
Conductors, method of carrying conductors after removal of poles* 929
Conductors, reel support for*..... 525
Conduit and pipe bender, Whitecotton, of Akron Electric Construction Company* 739
Conduit and pipe, bending racks and roll benders for, by Terrell Croft* 1052, 1095
Conduit bending, by Terrell Croft*.. 164
Conduit, chaingrip or pipe vise, made by Gerolo Manufacturing Company* 352
Conduit, improved method of placing in concrete form, by W. O. Myers* 207
Conduit, methods of bending, by Terrell Croft* 78
Conduit, methods of bending, by Terrell Croft* 124
Conduit, methods of bending, by Terrell Croft, Part V*..... 248
Conduit, methods of bending, by Terrell Croft* 289
Conduit, methods of bending, by Terrell Croft* 349
Conduit benders, some comments on, by Terrell Croft* 733
Conduit bender, some comments on, by Terrell Croft* 774
Conduit benders, some comments on, by Terrell Croft* 848
Conduit, wood mold for making emergency expansion sleeves, by A. Gemmell* 1054
Consolidated Gas, Electric Light & Power Company—
Speed-reducing gear* 83
Construction and maintenance, Spring (E) 419
Consumers Company employs electric trucks for coal and ice delivery* 652
Consumers Light & Power Company erects largest theater in South 523
Consumers Power Company—
Breeding germs of muncipal-plant agitation, by C. S. Dowling 367
Uses protective covering for steel covers 1051
Contract form for selling appliances on easy-payment plan 472
Contracting, estimating costs of.... 608
Contractors and dealers, importance of district associations of (E).. 1041
Contractors, among the 80, 125, 166, 208, 249, 290, 350, 388, 436, 471, 529, 642, 692, 735, 776, 808, 850, 886, 930, 963, 1007, 1054
Contractors and jobbers meet in St. Louis 156
Contractors' association in England has guarantee work scheme 207
Contractor-dealer and central-station co-operation 684
Contractor-dealer association organized at Cleveland 678
Contractor-dealer, new organization perfected (E) 153-156-158
Contractor-dealers of Worcester district hold monthly meeting..... 873
Contractor-dealers' problems discussed at Indiana meeting..... 954
Contractors, electrical, profit sharing by (E) 950
Contractors, methods of computing overhead expense of, by Paul C. Burrill 849
Contractors must perfect their organization (E) 870
Contractors' need for statistics (E) 275
Contractors of Massachusetts protest against Government practice in electrical construction 1091
Contractors' standard code 290
Controllers, armature, manufactured by Ward Leonard Electric Company* 966
Controller, elevator, reducing noise of 964
Control for calendars, General Electric Company* 438
Control, magnetic, for steel-mill motors made by Westinghouse Electric & Manufacturing Company* 932
Control, new features in electric elevator, by C. W. Geiger* 776
Control panel for Breco converter* 815
Converter, Breco, for use in garages, etc.* 815
Cooking and heating devices save fuel 74
Cooking, big increase in electric-cooking load of California company 169
Cooking, commercial electric 286
Cooking, electric (E) 554
Cooking, electric, low cost of 842
Cooking prospects, keeping in touch with in war time, by T. H. Kettle* 769
Cooking, safety of electric, shown by window display*..... 547
Cook Pottery Company's new assembled knob* 305
Cooling artificially with spray effects economy 526
Cooper Hewitt Electric Company—Motion picture lighting unit..... 254
Copper statistics for 1917 947
Copper wires, carrying capacity of, by Herbert A. Lane 247
Corks, electricity in the manufacture of, by William H. Easton*..... 462
Corner insulator for feeder cables*. 1057
Correction—
Fower for Miami Conservancy Project 629
Corrugated iron, hazards of, by Roger L. Evans* 959
Cost keeping, an effort to standardize 776
Cost keeping for electrical contractors 642
Cost-keeping system, development of 886
Costs of contracting estimated 608
Cost of iron wire conductors..... 713
Costs of wood, steel and concrete poles compared, by F. L. Haushalter* 587, 625, 667
Cotton Cellulose Company's motor drive 102
Council of National Defense, work of 40
Council of the Institution of Electrical Engineers appoints committee to consider British electric supply problems 717
Cover for push-button switch designed by Crouse-Hinds Company* 931
Cranberry Creek Coal Company plans to electrify colliery..... 872
Cranes, capacities attained by General Electric, in La Belle Iron Works* 440
Crane factory, motor drive in..... 428
Crestline Manufacturing Company—Motor-driven house pump* 533
Cretors & Company, C., motor-operated peanut roaster 612
Crops growth aided by use of electricity* 932
Cross-arm brace for transformer poles* 247
Crouse-Hinds Company develops cover for push-button switch*.. 931
Small motor switches* 393
Cuba sugar mill electrically driven, by F. A. Ortiz* 369
Current Electrical News 54, 93, 135, 176, 216, 262, 320, 358, 400, 444, 498, 540, 578, 616, 656, 698, 742, 782, 817, 853, 893, 933, 970, 1018, 1058, 1100
Currents, induced in pipe framework, by A. R. Zahorsky*..... 926
Customers encouraged to examine and handle appliances 634
Cutter, George, Company—Flood-lighting projectors* 486
Cutler-Hammer Manufacturing Company—
Automatic control for vacuum cleaner* 253
Automatic starting switch for squirrel cage motors* 570
Battery-charging equipment installed for industrial trucks*.. 778

Garage, high standard of electric service shown 303
Garford Motor Truck Company—
Power truck for general utility line work*..... 338
Gas and Electric Service Committee activities 376, 558
Gaskets, making rubber easily, by T. C. Matthews 208
Gasoline engine replaced by central-station service at Momence, Ill.. 522
Gates and valves, methods of connection* 960
Gear standardization discussed by American Gear Manufacturers' Association 435
Geier Company, P. A., Royal vacuum cleaner 490
General Devices & Fittings Company, new clamp insulators*.... 440
General Electric Company—
Additions to Ft. Wayne plant ... 49
Automatic speed control installed in Cuban sugar mill*..... 487
Changes in personnel of National Lamp Works 443
Combined fuse and disconnecting switch for outdoor service*.. 740
Compensarc set for changing alternating to direct current for picture projection*..... 352
Compression-chamber arresters for 10,000 and 13,200-volt circuits* 695
Control switchboard for electric furnace* 611
Dead-front switch panel*..... 1098
Develops new prepayment watthour meter*..... 1056
Develops new pressure governor for gas and liquid systems*.. 851
Electric cranes installed in La-Belle Iron Works*..... 440
Electrical control for calendars*. 438
Electric grinder regulator*..... 437
Employes listen to address by Secretary of Navy Daniels*.. 1036
Ft. Wayne Works develop compensarc for Mazda projection lamps 655
High-voltage series relay*..... 42
General Electric Co. (Cont'd).
Ivanhoe-Regent Works make Regent decorative glassware. 1057
Liberty bond subscriptions of employes 724
Lighting transformer*..... 253
New addition to plant at Lynn, Mass.* 49
Novel exhibit made at railway appliance show*..... 785
Ornamental street-lighting units* 210
Portable X-ray set for field service* 654
"Safety-First" inclosed lever switch* 83
Smallest practical set of testing instruments* 1016
Steel reflector units*..... 43
Generating plant in Ozark Mountains* 363
Generator, characteristics of inductor type, by Millard C. Spencer*.... 707
Generators, electrolytic, for Norway* 594
Generator, flywheel equalizing, economical for ore dock*..... 835
Germany, freight locomotives in..... 879
Gerolo Manufacturing Company's chaingrip conduit or pipe vise*.. 352
Gilfillan Brothers Smelting & Refining Company's drills and grinders* 254
Glass cutter for dials and the like, by Charles H. Willey*..... 1007
Globe Electric Company, typical example of motor repair shop..... 775
Godfrey, John F., manufactures coal conveyor* 695
Goodwin Plan—
Adopted by Illinois contractors*. 378
Boston contractors adopt plan... 424
Endorsed by Minneapolis contractors 632
Endorsed by Society for Electrical Development 424
Put into practice (E)..... 763
Goodwin, W. L., addresses Indiana contractors and dealers at annual convention 954
Goulds Manufacturing Company, electric-driven pump for small capacity services*..... 571
Government gives courses in employment management 761
Government nitrate plant will use central-station power 1093
Government use of electric tractors. 1013
Government use of electric trucks... 1093
Governor, pressure, for gas and liquid systems developed by General Electric Company*..... 851
Grading device for chain-grate stokers* 961
Graphic instruments, their value in improving motor drive, by T. S. Montgomery and W. B. Bray*... 831
Gray & Barash perfect electric dubbing machine for wooden ships*. 890
Gray Electric Company—
Ruralite lighting unit*..... 128
Great Britain adopts electric cooking in communal kitchens..... 770
Great Britain's interconnection of electric power supply..... 226
Great Britain's power and coal supply problems 11
Grill with aluminum pans made by Landers, Grary & Clerk..... 931
Grinder, laboratory, developed by Bauer Brothers Company*..... 1016
Grinder regulator maintains maximum production*..... 437
Grip, Red Devil Buffalo, Smith & Hemenway Company, Inc.*..... 655
Ground connections, influence of ground connection on lightning-arrester performance, by E. M. Cohen 959
Grounding, economies in 241
Grounding of fixture and appliance casing (E) 631
Grounding, contractor's view of, by C. B. Rutledge 241
Guy anchor, calculating holding strength of, by Gustav E. Janssen* 771
Guy, George H., honored by New York Electrical Society..... 919

H

Haag Brothers Company, electric washer* 654
Habirshaw Electric Cable Company, publishes "The Home electrical" 166
Hammer, an improvised soft-face by L. C. Miller*..... 885
Hammer kinks, by Charles H. Willey* 387
Hammond (Ind.) company saves fuel 379
Hanna Engineering Works machine shop lighting*..... 915
Harris, Dr. John A., designs system to relieve traffic congestion in New York City..... 763
Hartland Power Company supplies power to West Virginia coal mines 958

Haulage problem municipal, solved by electrics 297
Heat losses from bare pipes, by W. F. Schaphorst*..... 846
Heat regulator made by Western Electric* 306
Heaters, electric air, made by Cutler-Hammer* 307
Heaters, electric, in Louisville save fuel 74
Heater, feed-water, economy of, by W. F. Schaphorst*..... 432
Heaters, made by Edison Electric Appliance Company for coffee urns* 167
Heating and power discussed by Ohio central stations 839
Heating appliances, industrial, offer central-station opportunity 957
Heating, central station and load of industrial heating load, by Arthur F. Allsop*.....979, 1029
Heating devices, application to war work 1033
Heating device, industrial, helped by Commonwealth Edison Company* 685
Heating devices, uses of industrial.. 982
Heating, industrial, in Middle West making rapid strides..... 382
Heating, industrial and war work.. 1032
Heating, low-temperature industrial, by Dwight D. Miller*.....181, 230
Heating pad, electric, Wirt Electric Company* 572
Heating pad, Universal, Landers, Frary & Clark*..... 533
Herwig Art Shade & Lamp Company manufactures Auto Adjustolite fixture for garages and shops*.. 1017
Hickey, improved construction, by A. Pertle* 166
High Speed Hammer Company develops electric sensitive bench drill press*..... 777
Hirschy Company places electric washer on market*..... 741
Hog Island plant described by W. H. Blood, Jr. 1044
Hoist, electric, facilities offered to government 518
Hoist signal system developed, by H. C. Cronk*..... 1004
Holter Dam, progress on construction* 334
"Home Electrical," published by Habirshaw Electric Cable Company and Western Electric Company 166
Hood, S. B., presents paper "Grouping Transformers" 605
Hoover Suction Sweeper Company's vacuum cleaner..... 492
Hose clamping tool, by C. H. Willey* 847
Hotpoint to conduct publicity campaign 1008
House-wiring business of Minneapolis General Electric Company... 925
Housing electrical apparatus which need not be housed, by Roger L. Evans* 959
Howell Electric Motors Company's motors* 254
Hubbell, Harvey, Inc.—
Double outlet current tap*..... 128
Hubbell pull-socket current tap* 42
New heavy-duty polarized attachment plug*..... 694
Places new attachment plug on market* 612
Shade holders 437
Toggle surface switch*..... 81
Hughes electric ranges, stoves and ovens* 129
Hurley, Edward N., asks co-operation of coal operators..... 949
Hurley outlines merchant marine... 1045
Hurley Machine Company—
Locates in new quarters*..... 493
Thor vacuum cleaner*..... 489
Hydraulic penstock and pipe, gate and valve connections*..... 960
Hydroelectric development discussed at N. E. L. A. convention..... 993
Hydroelectric development increased in France 1083
Hydroelectric development in Iron Mountain Region*..... 1027
Hydroelectric development, some commercial aspects of, by Calvert Townley 150
Hydroelectric generating station of Rochester Railway & Light Company, by P. B. Findley*..... 503
Hydroelectric plant, automatic, by L. B. Bonnett and J. M. Drabelle 1080
Hydroelectric plants, New York officials' plans for (E)..... 194
Hydroelectric plant of Alabama Power Company, by W. B. West* 449
Hydroelectric plant planned by Seattle 921
Hydroelectric plant proposed for Seattle* 273
Hydroelectric plant tested by three-phase iron pipe rheostat*..... 1004
Hydroelectric station for Peninsular Power Company 754

I

Ice delivered by electric trucks*..... 650
Ice hauled electrically 1094
Ice plant's motor drive*..... 147
Ice, weather and economic conditions boosting (E)..... 153
Idaho's farm work improved by electricity* 284
Idaho Power Company to sell stock to customers..... 383
